An experienced data analytics professional proficient in developing data-driven solutions using advanced tools and techniques, including Machine Learning, to foster business growth. Committed to empowering young minds and creating positive community impact, with a strong inclination towards exploring the dynamic world of AI and its possibilities.

EXPERIENCE

CloudFactory

Associate Data Scientist

Lalitpur, Nepal

August 2022–Present

- Created proof of concept real-time and non-real-time analytics to analyze large datasets and provide insights to inform business decisions.
- Developed identity fraud detection analysis using techniques such as anomaly detection, clustering, or classification, and reported findings to the business, leading to improved fraud detection and prevention measures.
- Collaborated with cross-functional teams, including data engineers, business analysts, and product managers, to identify business problems, design analytics solutions, and communicate findings.

Xabit Analytics

Data Visualization and Designer

Kathmandu, Nepal

November 2021–August 2022

- Conducted data analysis using Python and SQL to extract, transform, and report on product data as per client needs.
- Conducted interviews with clients to gather requirements and designed a prototype web-based user interface, incorporating user feedback and industry best practices using design tools such as Figma.
- Created a user-friendly and responsive UI for the admin website using front-end technologies.

Data Visualization and Design Intern

August 2021–November 2022

- Designed and developed data visualizations for social media channels according to weekly sprints using Python, resulting in increased engagement and brand recognition.
- Cleaned and utilized diverse data sources for accurate and consistent implementation of data visualization content.
- Collaborated with different organizations to conduct workshops on big data, sharing knowledge and insights on data visualization techniques, tools, and best practices.

Code Rush

Graphic Designer Trainee

Kathmandu, Nepal

July 2021–October 2021

- Created visually appealing social media posts for the company and clients to increase engagement and brand recognition.
- Conducted market research to stay up-to-date on the latest trends and design styles to create impactful social media posts.
- Designed presentations for clients to communicate complex concepts and ideas in a visually compelling and easy-to-understand manner.

Women LEAD Nepal

Program Extension Trainee

Kathmandu, Nepal

February 2021–April 2021

- Assisted Women LEAD Nepal in the implementation, planning, and designing of flagship program OWN IT Nepal and partnership program Women of the World Nepal with British Council.
- Coordinated with the event and program teams to ensure smooth execution of logistics, including venue arrangements, participant registration, and speaker management.
- Formulated comprehensive post-event reports that included evaluation of program success and recommended improvements for future events.

Fundraising Intern

November 2019 – March 2020

- Coordinated end-of-year gifts and designed newsletters for overseas donors, resulting in increased engagement
- Wrote reports for Global Giving with supervisor, showcasing project impact and driving fundraising efforts.
- Assisted in the development and implementation of strategic sponsorship plans, managing ticket sales, and conducting outreach to cash, kind, and service sponsors, resulting in successful events and increased revenue.

Communication Intern

July 2019–September 2019

- Successfully implemented online recruitment strategies for the 2019 LEAD Course, reaching the target of 100 applications. Collaborated with co-intern to develop and execute effective outreach tactics.
- Formulated innovative outreach methods, including creating infographics, collecting alumni quotes, and producing alumni videos, to engage with potential applicants and promote the LEAD Course on social media.
- Designed visually appealing social media posts using Adobe Photoshop and Illustrator to further enhance online recruitment efforts, resulting in increased engagement and brand recognition.
